

CASTAWAY DIVING

Castaway Island, Fiji provides a unique South Pacific experience - a great place to relax, unwind and enjoy life's simple pleasures. Fiji's most popular island resort has guests returning year after year to experience the magic that is "Castaway". The island's 174 acres are covered with lush tropical vegetation, surrounded by white sand beaches and vibrant coral reefs.

Dive the warm, clear waters surrounding and adjacent to the island. Be enthralled by spectacular walls, reefs and pinnacles, hard and soft corals, moray eel and shark encounters, swimthroughs and the colours of abundant tropical fish life...all within minutes of Castaway on board 'Sokia'.

The 'Sokia' ('Angel Fish' in Fijian), is a purpose built, 30ft aluminium monohull dive boat, powered by twin 200hp outboard engines, making her one of the fastest and most stable dive platforms in Fiji. The 'Sokia' is fully surveyed, safety equipped and comfortably accommodates 14 divers speeding them to a host of spectacular dive sites.

Castaway Diving, our award winning PADI Five Star Gold Palm dive centre, offers a full range of PADI courses from introductory programs through to Divemaster certification. Our equipment for hire has been selected from the Mares Sea Lovers 2005 line, exemplifying the highest standard in quality dive gear today.

Warren (Waz) and Elle Meredith, an Australian husband and wife team, manage Castaway Diving. With twenty years' experience successfully overseeing dive operations in many of the world's top locations and in concert with Fiji's finest and most professional dive team, they deliver a first class and truly relaxing dive experience.

Our warm and welcoming family of staff invite you to experience island hospitality, Castaway style. Castaway is the heart and soul of the Fiji Islands, and we are bound to steal yours.

CASTAWAY
ISLAND, FIJI.

celebrating 40 years of Fiji island hospitality in 2006!

FREQUENTLY ASKED QUESTIONS

What do I need to bring?

We have Mares BCDs and regulators, (serviced regularly by our qualified staff), Aladin dive computers, Apollo diver propulsion vehicles and point-and-shoot digital cameras all for hire through the Dive Centre.

You may choose to bring your own gear, however our rental gear will meet your highest expectations.

Do you dive all year round?

Yes, you can come and dive with us anytime. The water temperature changes, peaking out during the summer at about 31°C/90°F and dropping to 26°C/78°F during the wintertime. So, the only thing you will need to consider is which wetsuit to wear, if any!

How long does it take to get to the sites?

No long boat rides here! You can expect to be at the site and ready to enter the water within twenty minutes of leaving Castaway's beach, sometimes less. Our dive sites are so local and accessible that we are probably the most ideally situated dive operation in the Mamanuca region.

What type of dive sites can we expect?

We have a wide variety of dive sites available, featuring rolling hills of hard corals and swimthroughs on the outside of the barrier reef with the opportunity to see pelagics, rays and turtles with visibility in excess of 30m/100ft. The lagoon offers various atolls and coral heads, providing excellent wall diving and the chance to experience a colourful array of coral and reef fish as well as cruising sharks and blue water species. The soft corals, large moray eels and batfish are more than eager to pose for the camera at "Gotham City" and the "Supermarket" is home to Fiji's famous shark encounter.

How often do you go out diving?

We run three single tank trips daily, due to the proximity of our dive sites, departing Castaway at 8:30am, 11:00am and 2:00pm. We also offer night dives by prior arrangement. All excursions have a round trip time of approximately one and a half hours and all diving is subject to weather conditions.

PADI DIVE COURSES

Bubblemaker

A scuba experience for children in the pool with lots of fun games to play and an emphasis on safety. (Minimum age: 8 years, Cost: \$50)
